eliasnikkinen.netlify.app

IT student from Tampere University specializing in UX/UI design and Human-Technology Interaction (HTI/HCI), with hands-on experience in usability evaluation, dashboard design, and Agile software projects with real clients. Figma, accessibility-aware design, and collaborating with developers. I enjoy experimenting with new technologies and exploring how AI can be used in real products to make everyday digital experiences smoother and more effective.

Comfortable working between design and code when needed. Seeking a **UX / UX/UI / Product Design** -trainee position.

Experience

Work Experience

Data Center Specialist Iron Mountain | Helsinki, 6-7/2022

- Worked in a high-security environment handling sensitive physical archives
- Performed independent, detail-oriented tasks with high accuracy
- Developed strong reliability, precision, and responsibility under strict procedures

Car Mail Dispatcher Mailia | Helsinki 11/2019-1/2020

- Delivered magazines on varying routes using a company car
- Adapted quickly to changing schedules and locations
- Worked independently during night shifts

Early Morning Deliveries Mailia | Helsinki 9-10/2019

- Managed a fixed delivery route with strict time constraints
- Demonstrated punctuality and consistency

Other Experience

Military Service, Santahamina | Helsinki 1-6/2020

- Guard Jaeger, Courier for HQ

Relevant Projects/Courses

Junior Developer – Metrics Monitoring Tool (Final University Project)

- Designed a dashboard UI based on stakeholder interviews and KPI requirements for a real client
- Worked in an Agile team (GitLab, sprints, Kanban, code reviews)
- Translated stakeholder requirements into UI components
- Collaborated with developers, product roles, and client representatives

Evaluation Methods: Usability & UX

- Conducted a usability evaluation of Airbnb website
- Planned and observed a usability lab test with a real participant
- Identified usability issues and proposed design improvements

Principles of Service Design

- Learned to involve stakeholders in service design and improvement
- Applied creative methods for service and experience design
- Practiced facilitation and collaborative design techniques

Skills

UX/UI & Design

- Figma
- Usability testing
- UX Research
- Accessibility-aware design

Front-End & Tools

- HTML, CSS, JS, React
- Git / GitLab
- MS Office
- AI tools

Programming (basic-intermediate)

- Python, R, C++, Java

Studies

Tampere University, B.Sc. (Tech.) Information Technology

- Major: Software Engineering
 - Minor: Human-technology Interaction
 - 170/180 credits completed
- Continuing to HTI -Master's

Helsinki Upper Secondary School of Natural Sciences

- Graduate 2018

Languages

- Finnish (Native)
- English (C1)
- Swedish (B1)

Hobbies

- Building PCs / Technology
- Going to the gym
- Mountain biking
- Snowboarding
